Guide to the English Version Website of 'Korean Statistical Information Service'

This webpage shows the homepage design layouts of the English version website of 'Korean Statistical Information Service' and their functions.

1. Homepage Design Layouts

- 1) KOSIS logo in English
- 2) Integrated Search
- 3) Top Menu Bar
- 4) Main Menu Bar
- 5) Major Contents
- 6) Quick Menu
- 7) Related Sites

The screenshot displays the KOSIS homepage with the following elements highlighted by numbered callouts:

- 1**: KOSIS logo in English.
- 2**: Integrated Search bar.
- 3**: Top Menu Bar (HOME, KOREAN, etc.).
- 4**: Main Menu Bar (Statistical Database, Visualization, Bulletin Board, About KOSIS).
- 5**: Major Contents section featuring various statistical indicators and a grid of category tiles.
- 6**: Quick Menu section including Press Releases, FAQ, Q&A, and KOSIS Contents.
- 7**: Related Sites section at the bottom right.

Major Contents Data:

Indicator	Value
Number of marriages ('20)	213,502 cases
Average number of books read per year ('21)	7.0 books
Prevalence of obesity ('19)	33.8 %
High-risk drinking rate ('19)	12.6 %
Number of child abuses ('20)	30,905 cases

Employment Data:

Indicator	Value
Employed persons	27,741 thousand persons
Employment to population ratio	61.4%
Unemployment rate	2.8%

Category Tiles:

- Population, Society, Crime and Safety, Labor, Income, Consumption and Wealth
- Health, Welfare, Education and Training, Culture and Leisure, Housing
- Land Use, Economy and Market, Business Activities, Agriculture and Forestry, Fishery
- Mining and Manufacturing, Construction, Transport and Traffic, Information and Communication, Science and Technology
- Retail, Wholesale and Services, Wages and Salaries, Prices, National Accounts, Government Finance and Service
- Finance, Trade and Balance of Payment, Environment, Energy

Press Releases:

- Production of Chili Pepper, Sesame and Highland Potatoes in 2021
- Rice Production in 2021
- The Index of Services and Retail Sales Index by Province in the Third Quarter of 2021

Visualization:

- Homo Statisticus: Infographics
- BusinessCycleClock: Slowdown, Expansion
- Korea in the World: Population, Population density, Total fertility rate, Total dependency ratio, Life expectancy at birth

Footer:

Statistics Korea Government Complex-Daejeon, 189 Cheongsu-ro, Seo-gu, Daejeon 35208, Republic of Korea TEL +82-2-2012-9114 COPYRIGHT(C) STATISTICS KOREA. ALL RIGHTS RESERVED.

1) KOSIS logo in English

When a user clicks a KOSIS English logo, an English website will be displayed.

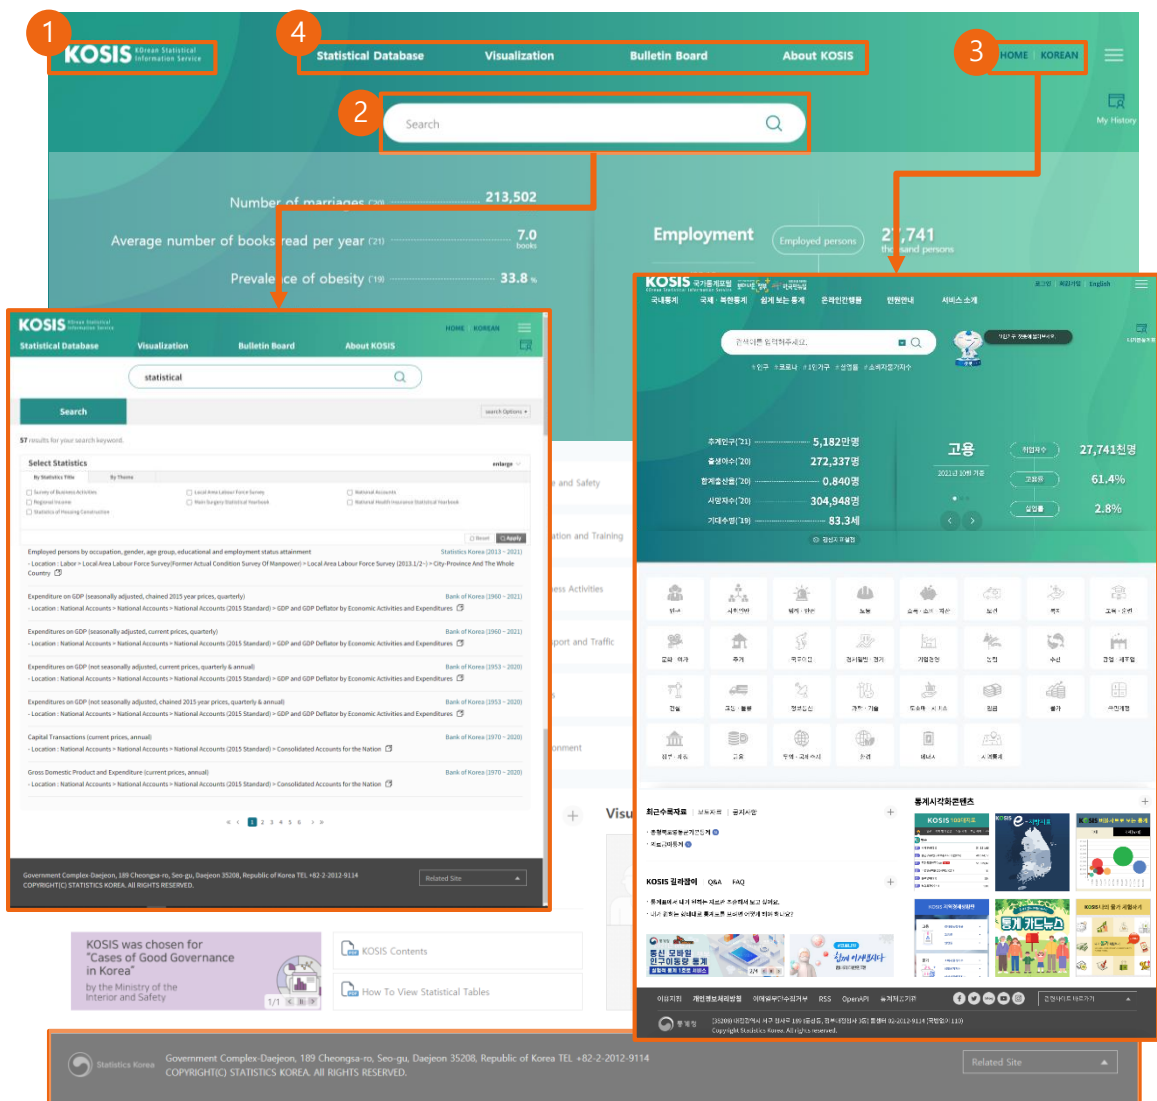

2) Integrated Search

When a user enters a statistical keyword in the search box and clicks the search button, search results of statistical tables will be displayed.

3) Top Menu Bar

The top menu consists of 'HOME' and 'Korean'.

When a user clicks the 'Korean' button, the Korean version website will be displayed.

4) Main Menu Bar

The main menu bar represents a navigation bar showing the menus of the KOSIS website.

① Statistical Database

This webpage shows a list of statistics, which are classified by topic. A user can find a statistical table that he/she wants from the list.

② Visualization

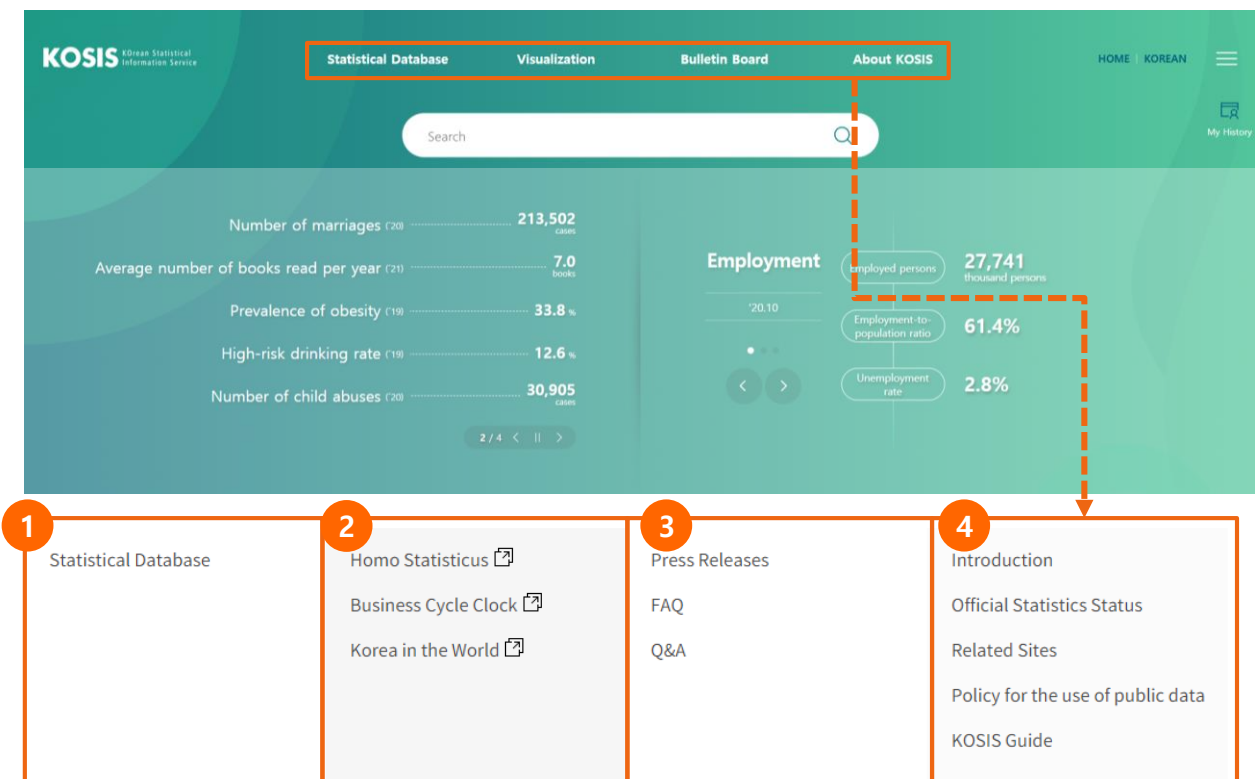

Statistical data are presented in a pictorial or graphical format.

③ Bulletin Board

The menu of "Bulletin Board" consists of "Press Releases", "Q&A" and "FAQ".

④ About KOSIS

The menu of "About KOSIS" consists of "Introduction", "Official Statistics", "Related Sites", "Policy" and "KOSIS Guide".

5) Major Contents

(1)Major Indicators of Korea

(2)Pop-up Zone

(3)Statistics by Topic

(4)News Releases, FAQ, Q&A, KOSIS Guide

(5) Visualization

The screenshot displays the KOSIS homepage with the following sections:

- Header:** KOSIS Korean Statistical Information Service, Statistical Database, Visualization, Bulletin Board, About KOSIS, HOME, KOREAN, and a search bar.
- Major Indicators of Korea (1):** A section showing key statistics such as Number of marriages (213,502 cases), Average number of books read per year (7.0 books), Prevalence of obesity (33.8%), High-risk drinking rate (12.6%), and Number of child abuses (30,905 cases).
- Statistics by Topic (3):** A grid of 20 topic categories including Population, Society, Crime and Safety, Labor, Income, Consumption and Wealth, Health, Welfare, Education and Training, Culture and Leisure, Housing, Land Use, Economy and Market, Business Activities, Agriculture and Forestry, Fishery, Mining and Manufacturing, Construction, Transport and Traffic, Information and Communication, Science and Technology, Retail, Wholesale and Services, Wages and Salaries, Prices, National Accounts, Government Finance and Service, Finance, Trade and Balance of Payment, Environment, and Energy.
- News Releases (4):** A section titled "Press Releases" with links to FAQ and Q&A, and a list of recent news items.
- Visualization (5):** A section titled "Visualization" featuring three interactive tools: Homo Statisticus, BusinessCycleClock, and Korea in the World.
- Pop-up Zone (2):** A section titled "KOSIS was chosen for 'Cases of Good Governance in Korea'" by the Ministry of the Interior and Safety, with links to KOSIS Contents and How To View Statistical Tables.
- Footer:** Statistics Korea logo, address (Government Complex-Daejeon, 189 Cheongsu-ro, Seo-gu, Daejeon 35208, Republic of Korea), contact information (TEL +82-2-2012-9114), copyright notice (COPYRIGHT(C) STATISTICS KOREA. ALL RIGHTS RESERVED.), and a "Related Site" link.

(1) Major Indicators of Korea

① Among statistics of the KOSIS website, the most widely used 10 statistical indicators are displayed.

On the right, statistical indicators roll sequentially at regular intervals.

Clicking the "⏸" button pauses the rolling of statistical indicators.

Clicking the "▶" button continues running the rolling of statistical indicators.

② When a user clicks the title of an indicator, a statistical table will be opened in a new window.

③ Clicking the "◀ ▶" button changes from the current statistical indicator to the previous indicator or from the current indicator to the following indicator.

The screenshot displays the KOSIS homepage with a green header and a grid of statistical indicators. A red box highlights the 'Number of marriages' indicator, which is the first of ten most widely used indicators. The indicator shows a value of 213,502 cases. A red circle with the number 1 points to the indicator's title. A red circle with the number 2 points to the indicator's value. A red circle with the number 3 points to the '▶' button, which is used to navigate to the next indicator. The 'Employment' indicator is also visible, showing 27,741 thousand persons employed, 61.4% employment-to-population ratio, and 2.8% unemployment rate. The page includes a search bar, navigation links (Statistical Database, Visualization, Bulletin Board, About KOSIS), and a footer with contact information and a 'Related Site' link.

Indicator	Value
Number of marriages (20)	213,502 cases
Average number of books read per year (21)	7.0 books
Prevalence of obesity (19)	33.8 %
High-risk drinking rate (19)	12.6 %
Number of child abuses (20)	30,905 cases

Indicator	Value
Employed persons	27,741 thousand persons
Employment-to-population ratio	61.4%
Unemployment rate	2.8%

(2) Pop-up Zone

A new statistical service of the KOSIS English version website is notified in the Pop-up Zone.

①Registered popups roll sequentially at regular intervals.

Clicking the "⏏" button pauses the rolling of popups.

Clicking the "▶" button continues running the rolling of popups.

Clicking the "◀ ▶" button changes from the current popup to the previous popup or from the current popup to the following popup.

②When a user clicks the image of a popup, a relevant popup will be opened in a new window.

The screenshot displays the KOSIS English homepage. At the top, there's a navigation bar with links to 'Statistical Database', 'Visualization', 'Bulletin Board', and 'About KOSIS'. A search bar is prominently featured. Below the navigation, several key statistics are presented in a grid format, including 'Number of marriages', 'Average number of books read per year', 'Prevalence of obesity', 'High-risk drinking rate', and 'Number of child abuses'. To the right, an 'Employment' section shows 'Employed persons', 'Employment-to-population ratio', and 'Unemployment rate'. A large grid of category tiles follows, covering areas like Population, Society, Crime and Safety, Labor, Income, Consumption and Wealth, Health, Welfare, Education and Training, Culture and Leisure, Housing, Land Use, Economy and Market, Business Activities, Agriculture and Forestry, Fishery, Mining and Manufacturing, Construction, Transport and Traffic, Information and Communication, Science and Technology, Retail, Wholesale and Services, Wages and Salaries, Prices, National Accounts, Government Finance and Service, Finance, Trade and Balance of Payment, Environment, and Energy. At the bottom, a 'Press Releases' section lists recent news items. A 'Visualization' section offers links to 'Homo Statistics', 'BusinessCycleClock', and 'Korea in the World'. A pop-up zone at the bottom left contains a notification titled 'KOSIS was chosen for "Cases of Good Governance in Korea" by the Ministry of the Interior and Safety'. This notification is highlighted with a red box and a red circle containing the number '2'. A red circle containing the number '1' points to a small icon within the notification. The footer includes contact information for Statistics Korea and a 'Related Site' link.

(3) Statistics by Topic

- ① This webpage is designed to show a list of statistical tables, which are classified by topic. Clicking a topic from the list displays a detailed list of statistics.
- ② When a user clicks a title of statistics, a detailed list of statistical tables will be displayed.

The image shows the KOSIS homepage with a green header and a grid of statistical topics. A red box labeled '2' highlights the 'Population' topic in the grid. An arrow points from this box to a second screenshot of the 'Population' topic page, which is also outlined with a red box labeled '1'. The 'Population' page displays a list of statistical tables under the 'Population Census' section, including 'Population By Census (2015-)', 'Population By Census Generalization (1925-2010)', and various years from 2010 to 1985.

KOSIS Homepage (Top Screenshot):

- Header: KOSIS Korean Statistical Information Service, Statistical Database, Visualization, Bulletin Board, About KOSIS, HOME, KOREAN, Search bar.
- Statistics: Number of marriages (2018) 213,502, Average number of books read per year (2018) 7.0, Prevalence of obesity (2018) 33.8%, High-risk drinking rate (2018) 12.6%, Number of child abuses (2018) 30,905.
- Employment: Employed persons 27,741 (thousand persons), Employment-to-population ratio 61.4%, Unemployment rate 2.8%.
- Topic Grid (Red Box 2): Population, Society, Crime and Safety, Labor, Income, Consumption and Wealth, Health, Welfare, Education and Training, Culture and Leisure, Housing, Land Use, Economy and Market, Business Activities, Agriculture and Forestry, Fishery, Mining and Manufacturing, Construction, Transport and Traffic, Information and Communication, Science and Technology, Retail, Wholesale and Services, Wages and Salaries, Prices, National Accounts, Government Finance and Service, Finance, Trade and Balance of Payment, Environment, Energy.

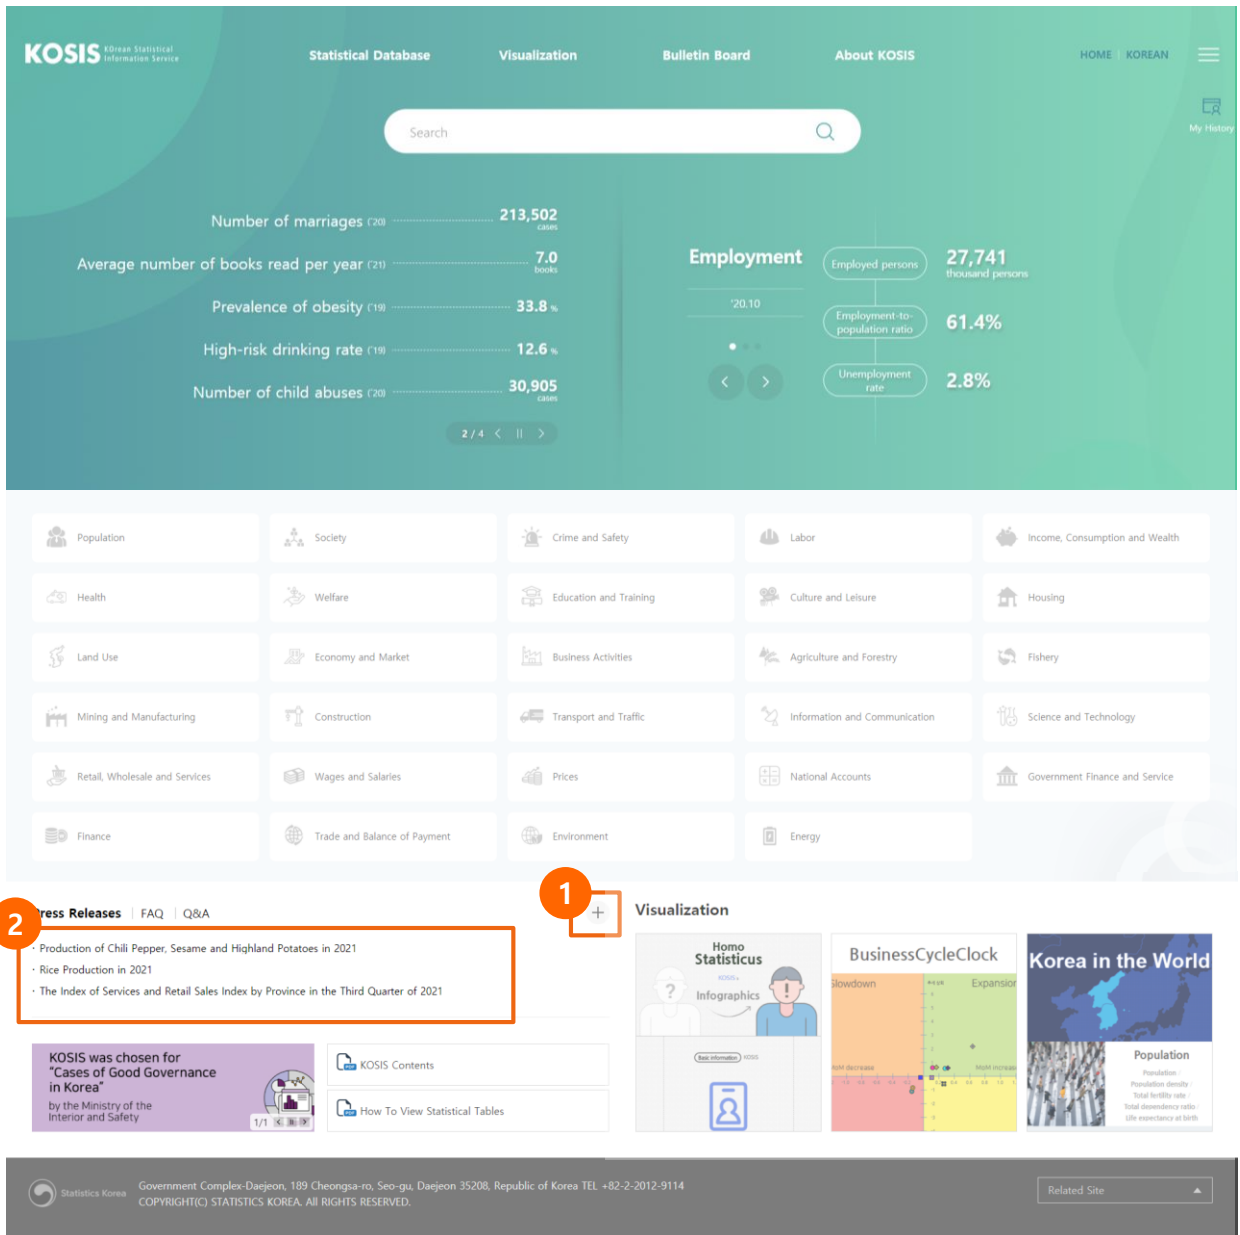

Population Topic Page (Bottom Screenshot):

- Header: KOSIS Korean Statistical Information Service, Statistical Database, Visualization, Bulletin Board, About KOSIS, HOME, KOREAN, Search bar.
- Section: Statistical Database, Statistical list, Statistical Database.
- Legend: Information, Recommended, Discontinued Time Series.
- Statistics List: Population, Population Sector, Population By Census (2015-), Population, Households and Housing Units (2015-2020), Population By Census Generalization (1925-2010), Population By Census (2010), Population By Census (2005), Population By Census (2000), Population By Census (1995), Population By Census (1990), Population By Census (1985).

(4) Press Releases, FAQ, Q&A, KOSIS Guide

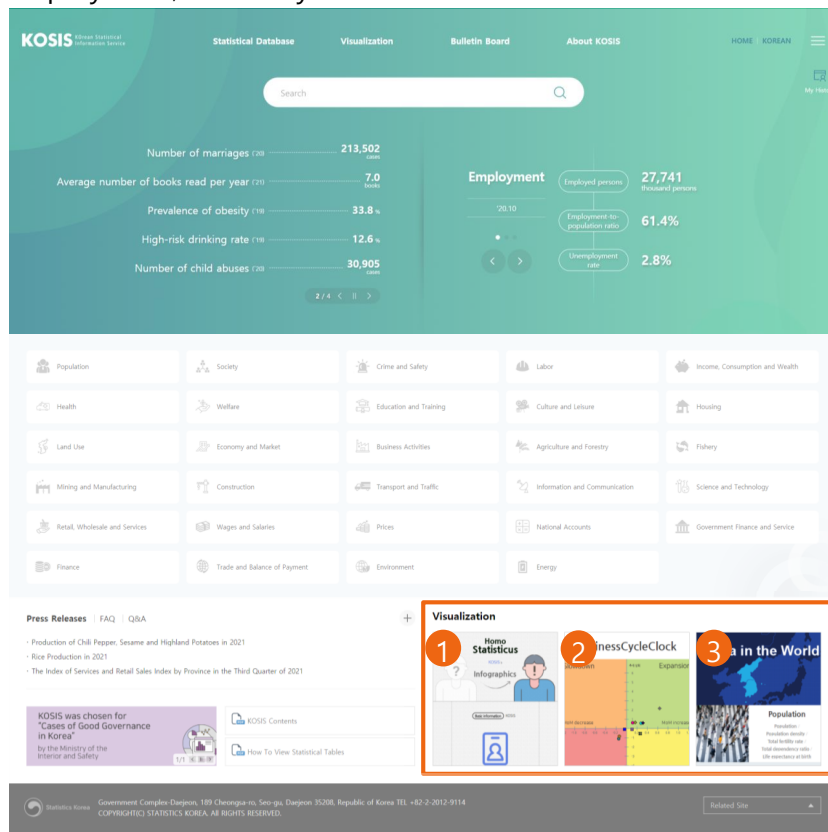

The homepage displays Press Releases, FAQ, Q&A and KOSIS Guide as a shortcut.

- ① Clicking a button shows a list screen of its relevant service.
- ② When a user clicks a title, a detailed view screen will be opened in a new window.

(5) Visualization

- ① When a user clicks 'Homo Statisticus' and enters basic information, statistical data related to his (or her) daily lives will be displayed with visualized contents in a new window.
- ② When a user clicks the 'Business Cycle Clock', visualized contents will be displayed in a new window to show the business cycles (expansion, slowdown, recession and recovery) of major economic indicators.
- ③ When a user clicks 'Korea in the World', a new window will be displayed to show the position of South Korea among countries all around the world in various fields including population, employment, economy and health.

6) Related Sites

The homepage provides a direct link to related websites.

When a user selects a related website and clicks the 'GO' button, the relevant website will be opened in a new window.

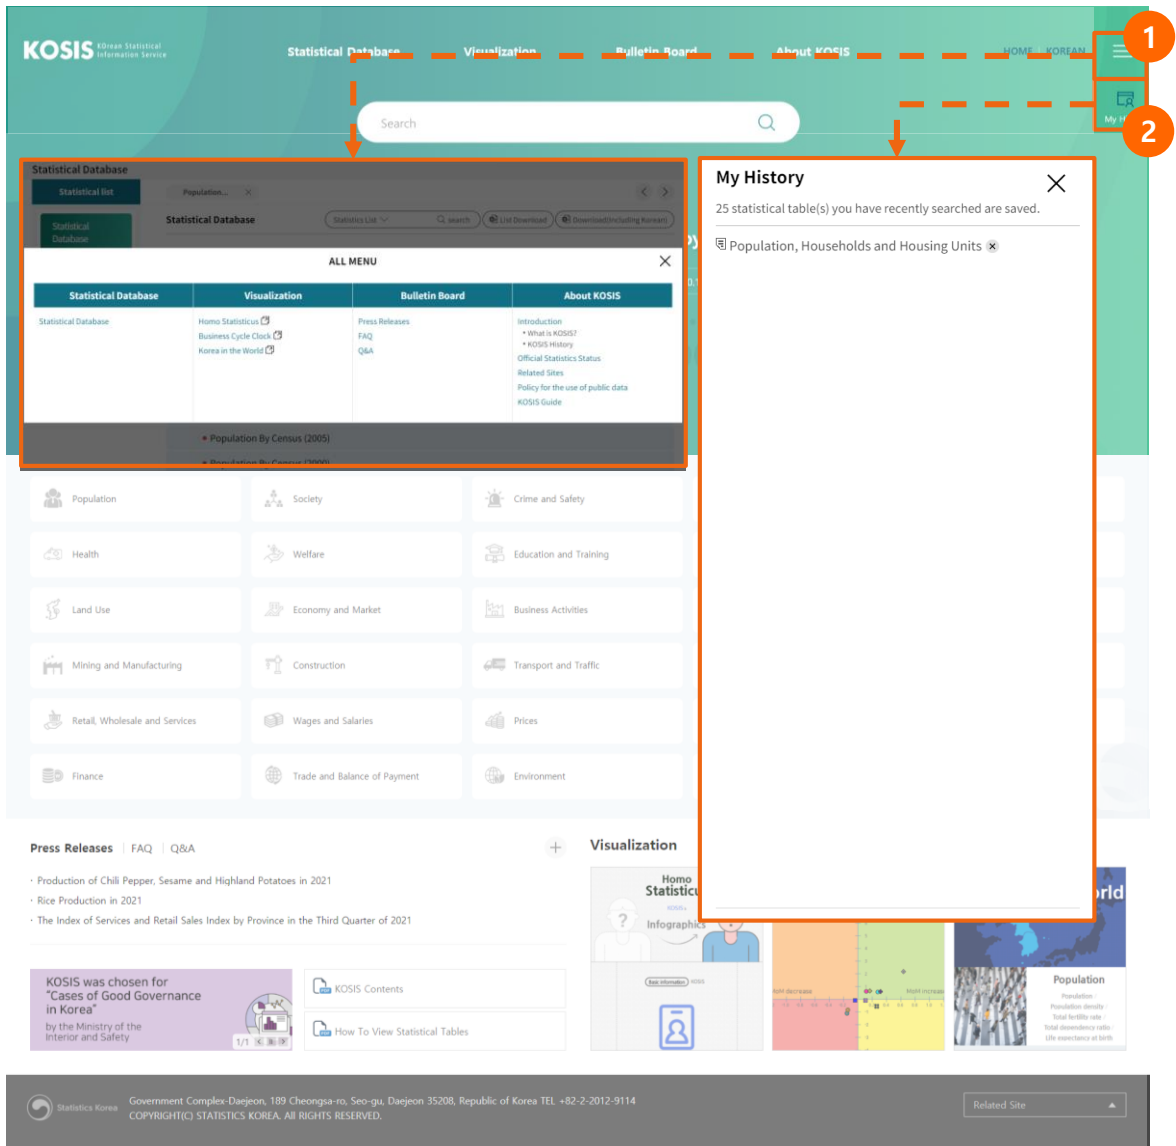

Government Complex-Daejeon, 189 Cheongsa-ro, Seo-gu, Daejeon 35208, Republic of Korea TEL +82-2-2012-9114
COPYRIGHT(C) STATISTICS KOREA. ALL RIGHTS RESERVED.

Related Site

7) Quick Menu

The Quick Menu consists of 'All Menu' and 'My History'.

- ① When the 'All Menu' button is clicked, a total of menus on the English version website of KOSIS are listed.
- ② When the 'My History' button is clicked, statistical tables that a user has recently retrieved are listed. (When a user didn't retrieve a statistical table, a memo saying 'You didn't retrieve any statistical table.' will be shown.)

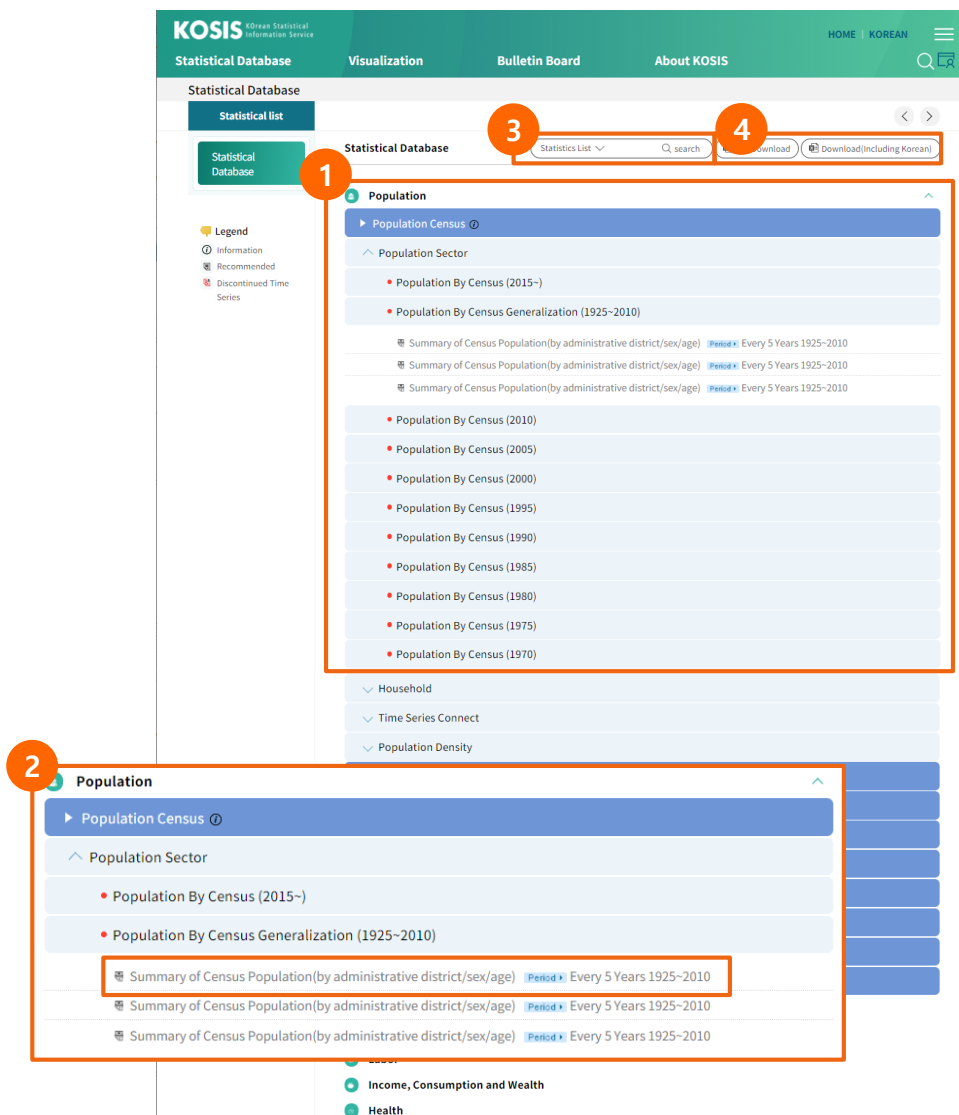

The screenshot displays the KOSIS homepage with a green header. In the top right corner, there is a 'Quick Menu' area with two buttons: 'All Menu' (labeled 1) and 'My History' (labeled 2). Below the 'All Menu' button, a modal window titled 'ALL MENU' is open, showing a grid of categories including Statistical Database, Visualization, Bulletin Board, and About KOSIS. Below the 'My History' button, a modal window titled 'My History' is open, displaying a list of recently searched statistical tables, such as 'Population, Households and Housing Units'.

2. Menu Design Layouts

1) Statistical Database

(1) Statistical Database Layouts

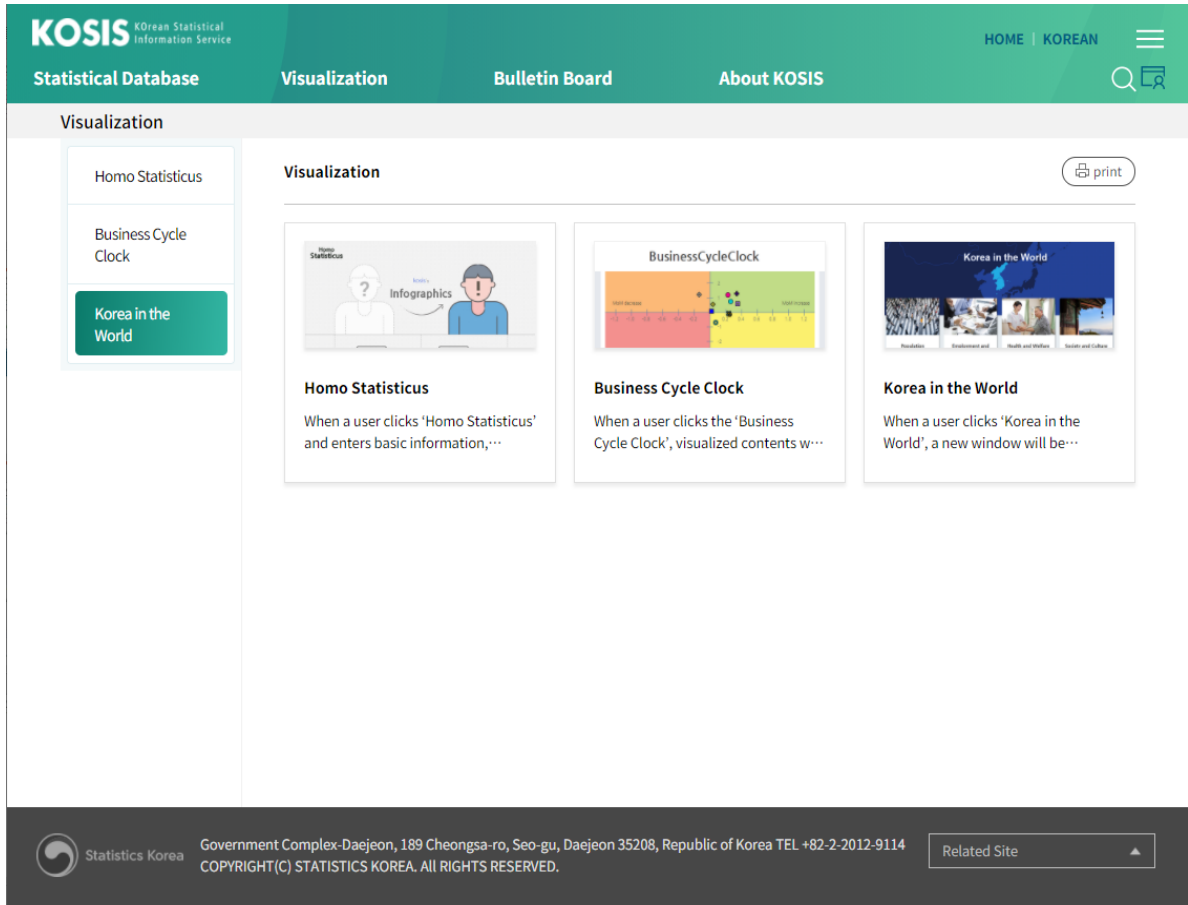

- ① This webpage shows a list of statistics and statistical tables. When a user clicks a specific topic, a detailed list of statistics at a lower level will be displayed. Each statistical table displays information on data frequency or period, which is shown beside the title of the statistical table.
- ② Clicking a statistical title opens a statistical table in a new window.
- ③ Data can be searched by either a list of statistics or a statistical title.
- ④ It's possible for users to download data in an Excel file.

2) Visualization

Visualized statistical contents are provided to help KOSIS users understand statistical information more easily.

When a user clicks one of the content areas, a new window will be opened to show relevant contents

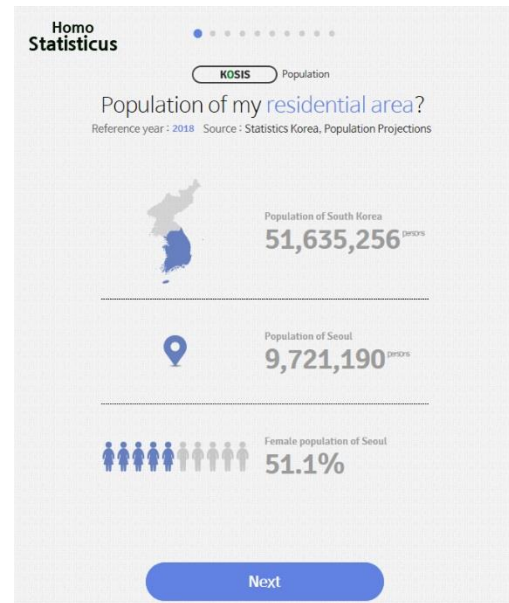

(1) Homo Statisticus

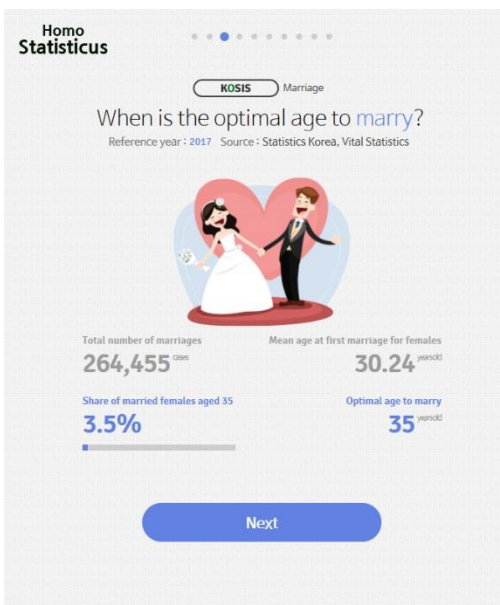

When a user clicks 'Homo Statisticus' and enters basic information, statistical data related to his (or her) daily lives will be displayed with visualized contents in a new window. A user can identify his (or her) status in daily lives by using statistical information. When a user answers the question, survey results will be represented as infographics.

※ Types of questions: Use of basic information, use of KOSIS statistics, questionnaires.

Enter basic information and click the 'View results' button.

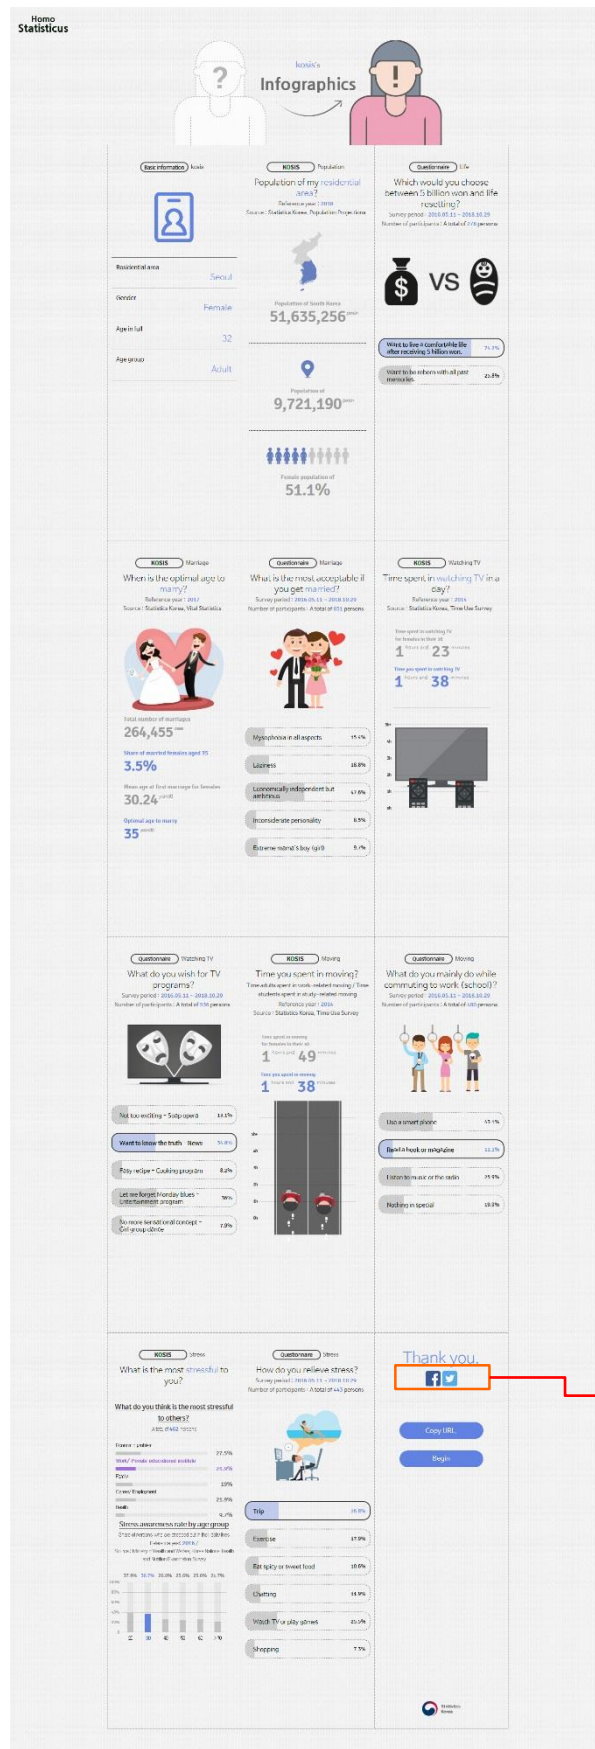

Infographics when using basic information

Infographics when using KOSIS statistics

Infographics when using replies to a questionnaire.

[Screens of my infographics]

Possible to share my infographics through SNS

(2) Business Cycle Clock

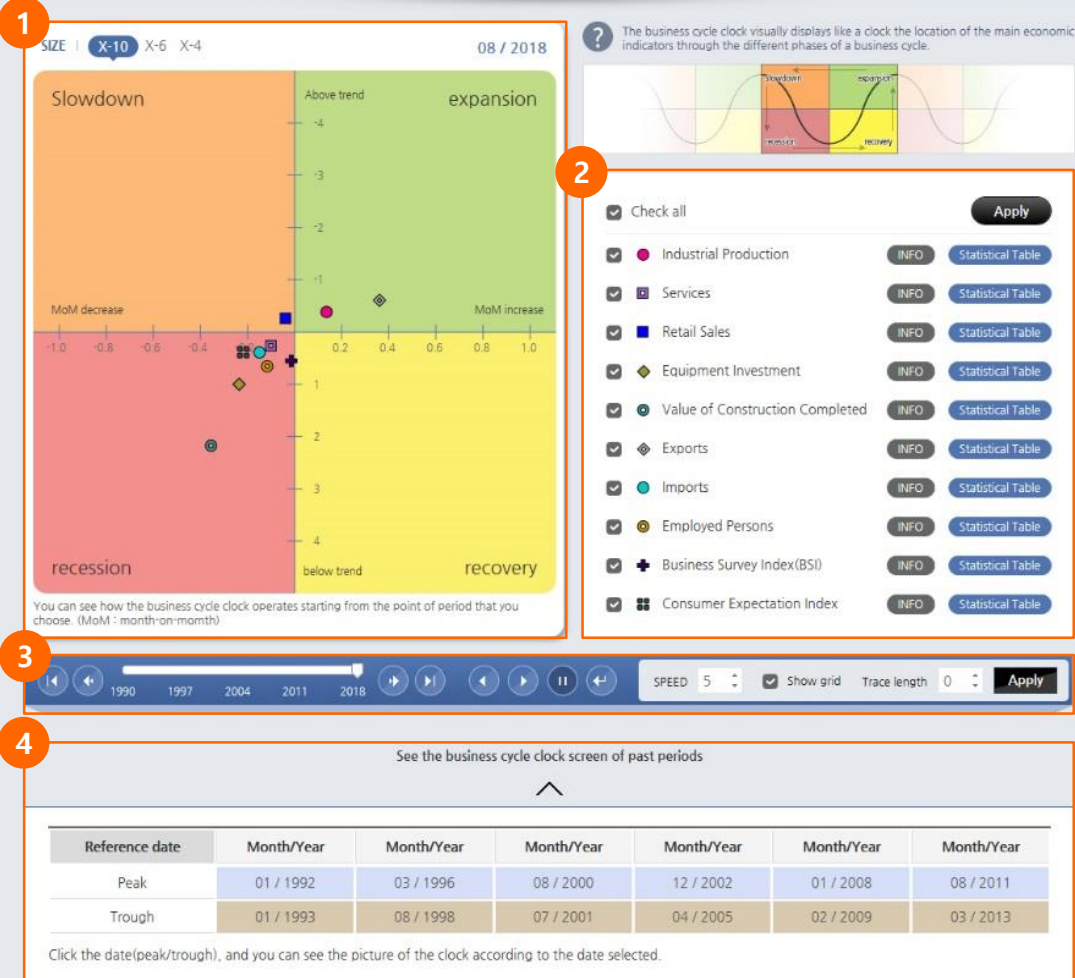

The Business Cycle Click visually represents business cycles (expansion, slowdown, recession or recovery) of economic activities including the Industrial Production Index, Value of Construction Completed, the Index of Services, the Retail Sales Index and the Equipment Investment Index.

- ① The Business Cycle Clock tracks the recurrent sequences of alternating increasing and decreasing phases in the economic activities(expansion, slowdown, recession or recovery) on clock-shaped infographics.
- ② Dynamic features of the Business Cycle Clock allow user to select an economic indicator as they need.
- ③ The Business Cycle Clock enables users to control the starting period of time-series data with a time controller bar.
- ④ When a user wants to see the business cycle in the past, he (or she) changes the reference time period to the past. Then the business cycle in a specific time period in the past will be displayed by clicking 'View Business Cycle Clock'.

KOSIS BusinessCycleClock

KOREAN

HELP

The graph of the business cycle clock in August

According to the business cycle clock in August industrial production, exports are located in the expansion phase(green quadrant), services, equipment investment, value of construction completed, imports, employed persons, business survey index(BSI), consumer expectation index are located in the recession phase(red quadrant)

In comparison with July's clock, industrial production, exports are increased while, services, retail sales, equipment investment, value of construction completed, imports, employed persons, business survey index(BSI), consumer expectation index are decreased

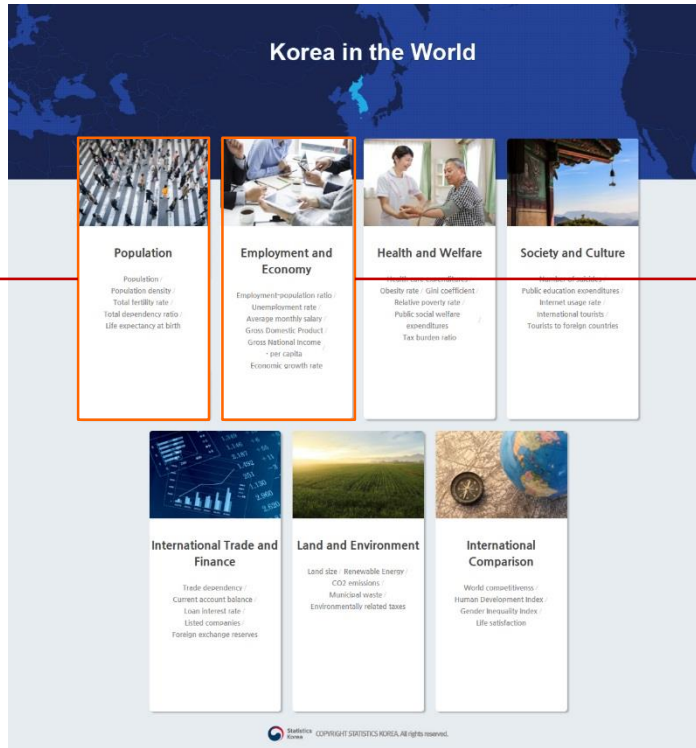

Note

- Individual indicators of the business cycle clock are made by using a cyclical component where seasonal, irregular and trend factors are removed and cyclical component's monthly change, so its direction might be different from the original series or the seasonally adjusted series.
- Each of the individual indicators' latest location within the 4 quadrants might change as data is renewed every month due to the filtering method of the cyclical component
- The business cycle clock is scheduled to be updated near the beginning days of every month.

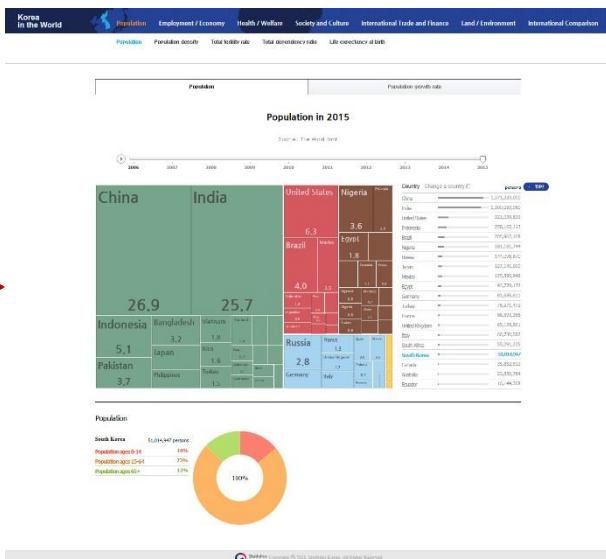

October 10, 2018 updated

○ Korea in the World

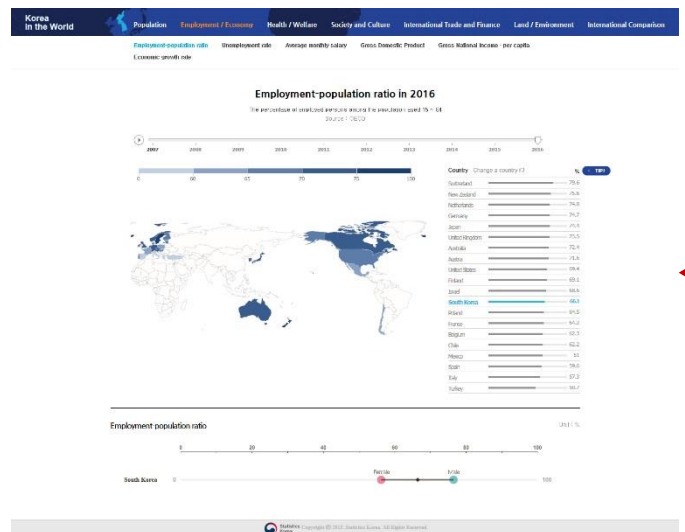

A user grasps the position of South Korea among countries all over the world in diverse fields such as population, employment, economy and health.

'Estimated population' in the section of "Population"(treemap)

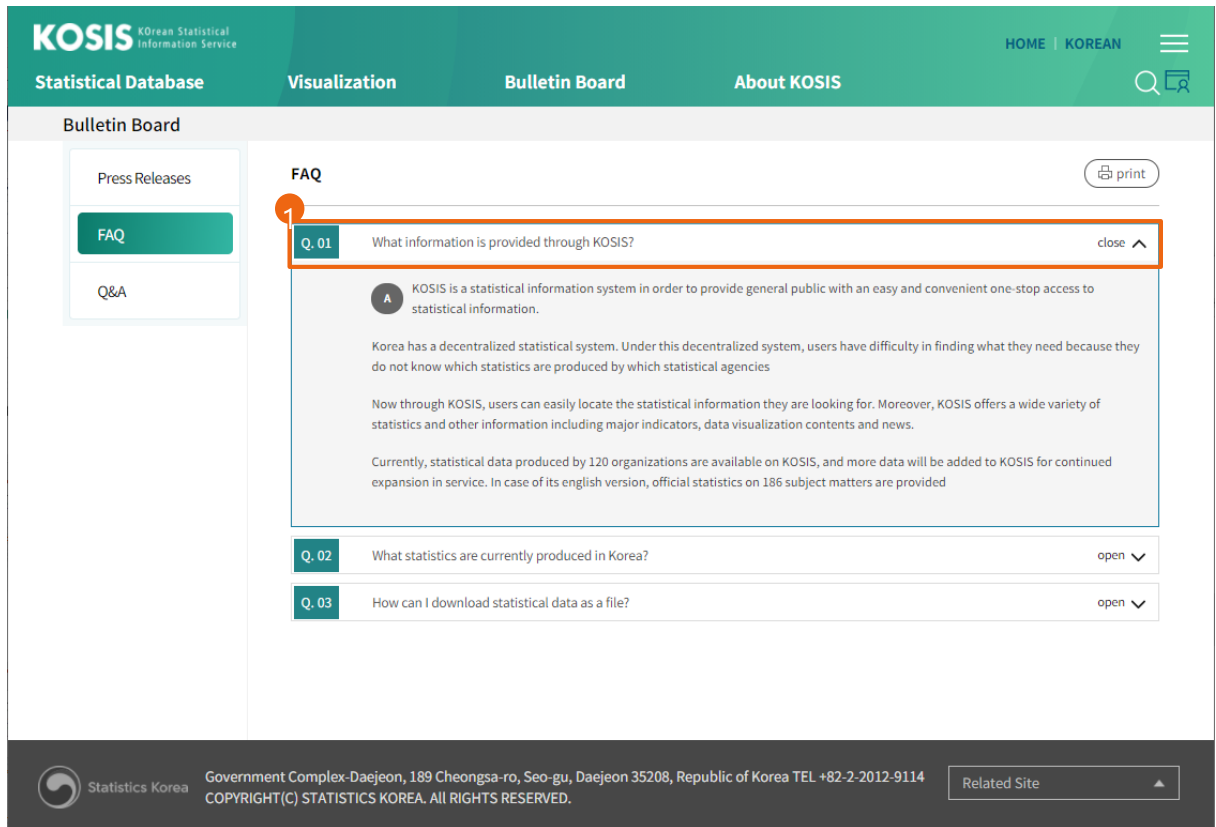

'Employment-population ratio' in the sector of "Employment/ Economy" (map)

(2) FAQ

The answers to frequently asked questions are provided to KOSIS users,

- ① When a user clicks a question, the answer will be shown under the question.

The screenshot displays the KOSIS (Korean Statistical Information Service) website. The top navigation bar includes links for HOME, KOREAN, and a menu icon. Below this, a secondary navigation bar lists Statistical Database, Visualization, Bulletin Board, and About KOSIS. The main content area is titled 'Bulletin Board' and features a sidebar with links to Press Releases, FAQ (highlighted), and Q&A. The FAQ section is titled 'FAQ' and includes a 'print' button. A list of questions is shown, with Q.01 selected and expanded. Q.01 asks 'What information is provided through KOSIS?'. The answer explains that KOSIS is a statistical information system designed to provide the general public with easy and convenient one-stop access to statistical information. It notes that Korea has a decentralized statistical system, which makes it difficult for users to find what they need because they do not know which statistics are produced by which statistical agencies. Through KOSIS, users can easily locate the statistical information they are looking for. KOSIS also offers a wide variety of statistics and other information, including major indicators, data visualization contents, and news. Finally, it states that currently, statistical data produced by 120 organizations are available on KOSIS, and more data will be added for continued expansion in service. In case of its English version, official statistics on 186 subject matters are provided. Below the expanded question, two more questions are listed: Q.02 'What statistics are currently produced in Korea?' and Q.03 'How can I download statistical data as a file?'. Both have 'open' buttons with dropdown arrows. The footer contains the Statistics Korea logo, contact information for the Government Complex-Daejeon, and a 'Related Site' link.

(3) Q&A

A statistical user can ask a question related to the English version KOSIS website. Then the website operator will post an answer.

①When clicking the title of the question, a statistical user will see the details.

②After clicking the 'Write' button, a user can write down a question. In order to post a question, a user should click the 'Agree' check box. When modifying or deleting a question, a user should enter a password.

③When a user enters a keyword and clicks the 'Search' button, relevant titles or contents will be displayed.

The screenshots illustrate the Q&A process on the KOSIS website:

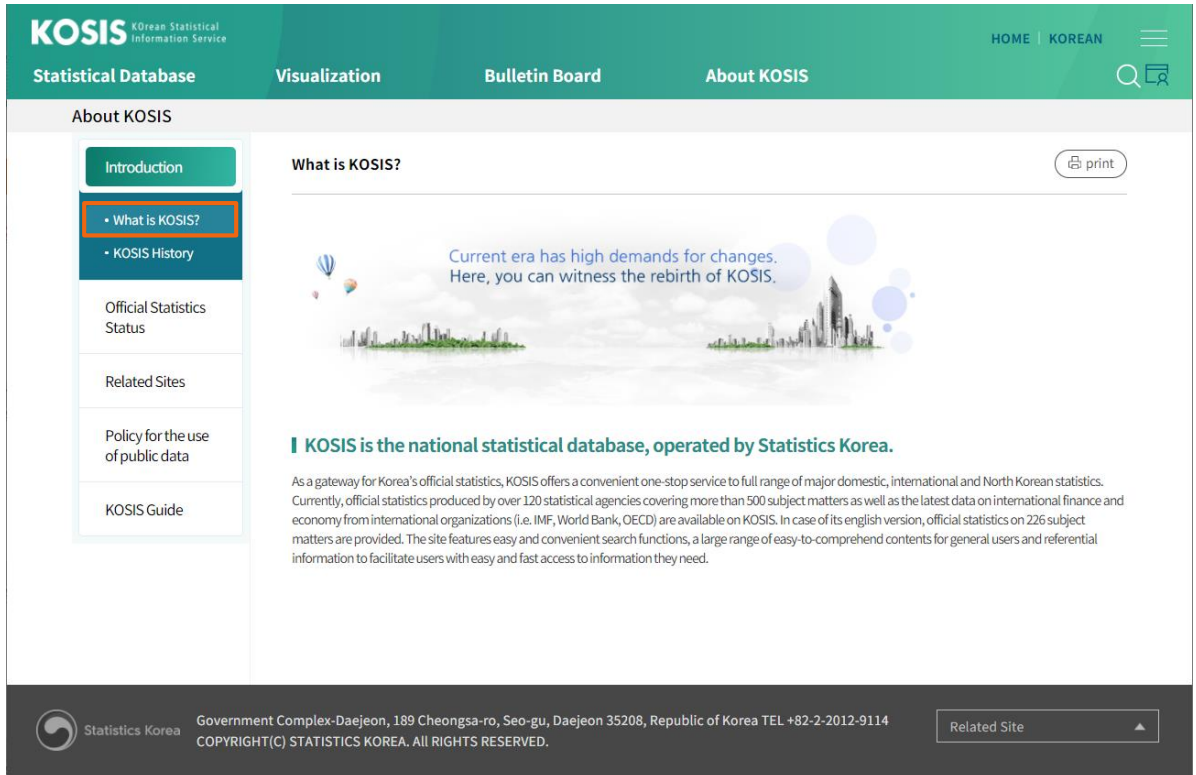

- First Screenshot:** Shows the 'Bulletin Board' section with a 'Q&A' tab selected. A search bar (3) is visible. A table lists questions with columns: No., Title, Date, and Status. A red box (1) highlights the 'Request for EAPS data' question.
- Second Screenshot:** Shows the details of the 'Request for EAPS data' question (1). It includes the question text, date (2020-10-23), and views (131).
- Third Screenshot:** Shows the 'Write' button (2) and the form for posting a question. The form includes fields for Title, Writer, Nationality, E-mail, Password, and a text area for the question content.

Official Statistics Status

As of 11.25.2021 (1:00), official statistics on 1261 subject matters (92 designated statistics and 1169 general statistics) are officially approved under the Article 18 (or Article 20) of the Statistics Act. These statistics can be distinguished by the method of collection/production. 555 statistics are collected via surveys while 479 statistics are administrative statistics. Remaining 227 statistics are derived statistics. 1055 Statistics — of these 66 are produced by KOSTAT — are produced by government agencies while 206 statistics are produced by designated organizations that are non-governmental.

Statistics by Agencies

as of 11.25.2021 (1:00) (Unit : Agency, Kind)

Agency	Number of statistical agencies	Total	By kind		By compiling method		
			Designated statistics	General statistics	Survey	Administrative	Analytic

(6) KOSIS Guide

A user manual is provided in a text file to KOSIS users.

3. Integrated Search

This webpage provides services of searching statistical tables.

When users click the ' ' button or press the 'Enter' button after entering a keyword in the 'Search' box, search results will be displayed.

The screenshot displays the KOSIS (Korean Statistical Information Service) Integrated Search interface. The search keyword 'population' is entered in the search box. The results show 164 items. The interface includes a 'Select Statistics' section with checkboxes for various statistical categories, and a list of search results with details like title, location, and year range. The results are paginated, showing items 1 through 10.

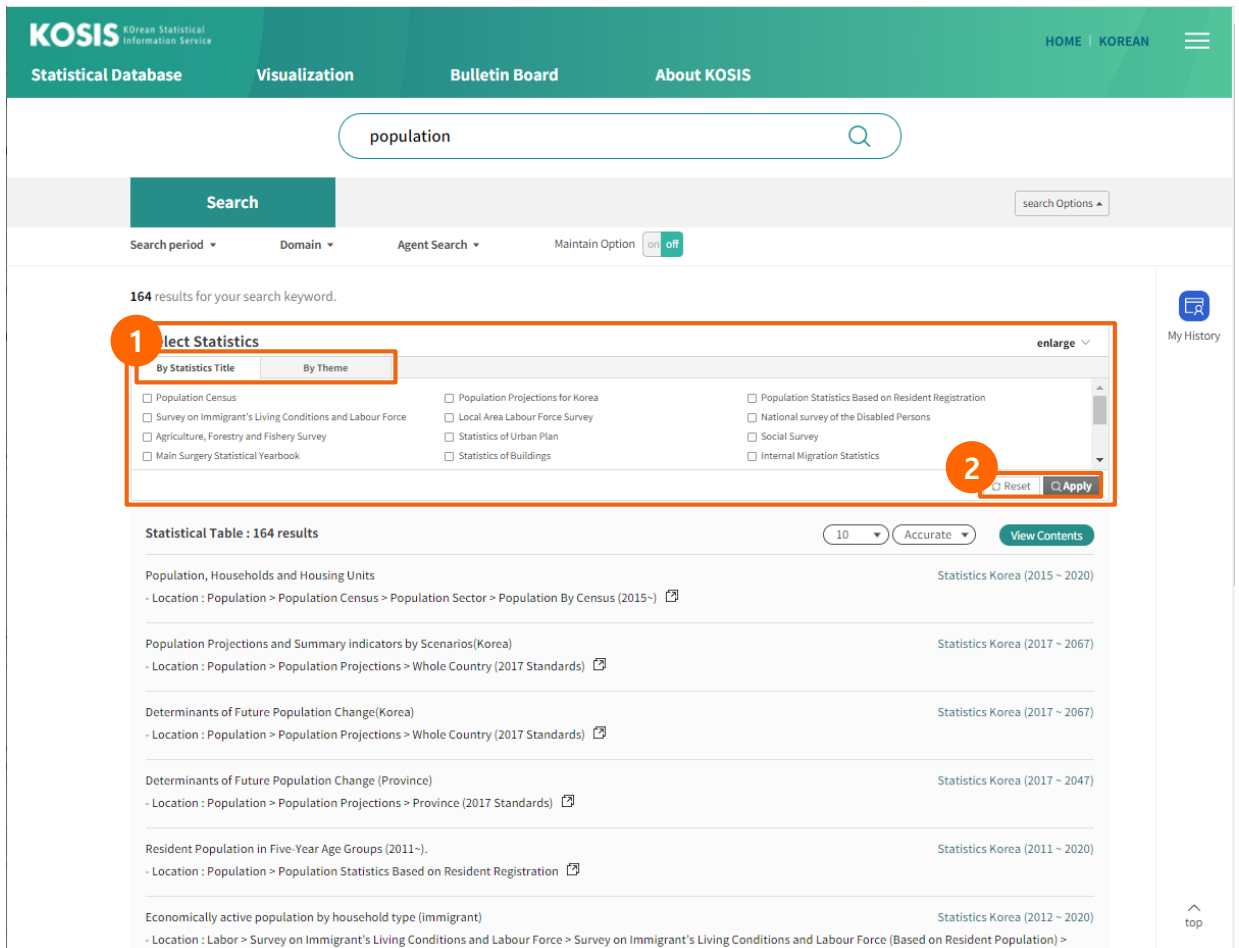

Search Results Summary:

Statistical Table	Location	Year Range
Population, Households and Housing Units	Population > Population Census > Population Sector > Population By Census (2015~)	Statistics Korea (2015 ~ 2020)
Population Projections and Summary indicators by Scenarios(Korea)	Population > Population Projections > Whole Country (2017 Standards)	Statistics Korea (2017 ~ 2067)
Determinants of Future Population Change(Korea)	Population > Population Projections > Whole Country (2017 Standards)	Statistics Korea (2017 ~ 2067)
Determinants of Future Population Change (Province)	Population > Population Projections > Province (2017 Standards)	Statistics Korea (2017 ~ 2047)
Resident Population in Five-Year Age Groups (2011~).	Population > Population Statistics Based on Resident Registration	Statistics Korea (2011 ~ 2020)
Economically active population by occupancy type (immigrant)	Labor > Survey on Immigrant's Living Conditions and Labour Force > Survey on Immigrant's Living Conditions and Labour Force (Based on Resident Population) > Economically Active Population	Statistics Korea (2014 ~ 2020)
Economically active population by status of sojourn (foreigner)	Labor > Survey on Immigrant's Living Conditions and Labour Force > Survey on Immigrant's Living Conditions and Labour Force (Based on Resident Population) > Economically Active Population	Statistics Korea (2012 ~ 2020)
Summary of economically active population (immigrant)	Labor > Survey on Immigrant's Living Conditions and Labour Force > Survey on Immigrant's Living Conditions and Labour Force (Based on Resident Population) > Economically Active Population	Statistics Korea (2012 ~ 2020)

1) View 'Selected Statistics'

① View statistics by statistical title or topic

- Search results of statistical tables are presented by being grouped by statistical (or survey) title.
- When clicking the check box on the left of the statistical title and pressing the 'Apply' button on the lower right, only a list of selected statistical tables is shown.
- Pressing the 'Reset' button enables users to select statistical (survey) titles again.
- When clicking 'Statistics by Topic' on the upper left tap, 16 topics of statistics in 'Statistical Database' will be listed. Selecting a specific topic displays relevant statistical titles. When too many statistical tables are retrieved, users are recommended to pick up statistics that they need by using the function of searching statistics by topic.

2) View 'Statistical Table'

When entering a search keyword, statistical tables will be presented. Along with a list of statistical tables, the location of statistical tables, statistical production agencies and time dimension of statistical information will be shown together.

①A user can specify the number of search results on a screen, for example, 10 tables, 20 tables and 30 tables.

②A user can specify the sorting order of search results according to their 'Accuracy' or 'Update' order.

③When clicking 'View Contents', items of statistical tables will be shown. When clicking 'Close Contents', contents will be closed .

④When clicking a statistical title, a relevant statistical table will be opened in a new window.

⑤A statistical production agency is shown.

⑥When clicking the location information of the statistical table, a list of the other statistical tables in the same location will be shown below. Clicking the 'X' button removes the list of the other statistical tables. When a user clicks the " button on the right of the location information, a list of statistical tables in the same location will be opened in a new window.

3) Advanced Search

Sometimes users may find it difficult to obtain search results as they want. In that case, they need to define search range in the advanced search box in detail to get more accurate search results.

Users themselves specify time dimension, search range and a statistical production agency in the advanced search box on the left. Then press the 'Apply' button, and advanced search results will be displayed.

The screenshot displays the KOSIS (Korean Statistical Information Service) Advanced Search interface. The search term 'population' is entered in the top search bar. Below the search bar, the 'Search' section is highlighted with a red box and numbered 1. This section includes dropdown menus for 'Search period', 'Domain', and 'Agent Search', along with a 'Maintain Option' toggle set to 'on'. To the left of the 'Search' section, a 'Custom Range' section is highlighted with a red box and numbered 2, showing date pickers for '2016-11-25' and '2021-11-25' with an 'Apply' button. The 'Domain' dropdown is highlighted with a red box and numbered 3, showing options like 'All', 'Statistical table title', 'Statistics Title', 'Classification', and 'Item'. The 'Agent Search' dropdown is highlighted with a red box and numbered 4, showing a 'search' button and an 'Apply' button. The main search results area shows a list of 164 results, including 'Population, Households and Housing Units', 'Population Projections and Summary indicators by Scenarios(Korea)', 'Determinants of Future Population Change(Korea)', 'Determinants of Future Population Change (Province)', 'Resident Population in Five-Year Age Groups (2011-)', and 'Economically active population by household type (immigrant)'. The interface also includes a 'search Options' dropdown, a 'My History' button, and a 'View Contents' button.

① Maintain Options

- Even after performing advanced search, a user may want to maintain the previous options. In that case, a user can select the 'On' (a default value) button in the 'Maintain Options'.
- When a user selects the 'Off' button, the previous advanced search options are not valid any more.

② Time Dimension

- If users want to search data only for the limited time period, they can choose the default time option or specify time dimensions as they need.

③ Search Domain

- If users select a search domain, more accurate search results will be obtained.
- 'All' is a default search domain option. Users are allowed to select options among 'Statistical table title', 'Survey title', 'Classification' and 'Item'.

④ Agency Search

- A user can search a statistical production agency through the agency search function.
- When entering a part or entire title of an agency in the agency search box and pressing the 'Agency Search' button (or pressing 'Enter'), agency search results will be displayed.
- When clicking an agency from search results, a pop-up window will be automatically closed.
- Pressing the 'Reset' button displays all agencies of statistical production.
- When finishing the selection of an agency and clicking the 'Apply' button, search results of the agency will be displayed.
